ContaxCRM 3.9.9
Installation Instructions

New Users:

Following a successful download your software will be available in your download location.

Double Click the file contaxcrm.zip and the folder ContaxCRM.Live will be created for you.

If using an Apple Mac, move the ContaxCRM.Live folder into your Applications folder. *

If using Windows, move the ContaxCRM.Live folder into your C:\Program Files (x86) folder. *

If using an Apple Mac, to run ContaxCRM, open the ContaxCRM.Live folder and Double Click the ContaxCRM.app file. @

If using Windows, to run ContaxCRM, open the ContaxCRM.Live folder and Double Click the ContaxCRM.exe file. @

_____

*Note: The above folder locations are advice only. The ContaxCRM.Live folder can actually be put wherever is most convenient for you.

@ Note: Depending on your system settings the files may not show their extensions (.exe or .app) it will however be obvious which file to Double Click.
