### PROFILE

**Damian Taggart**

As president and founder of Mindshare Media, Damian maintains responsibility for Mindshare Media's business operations and the success of Mindshare Media's client engagements.

In the five years prior to founding Mindshare Media, Damian worked with the web for St. John's College and Central New Mexico Community College. Damian has been an avid technology entrepreneur and small business owner for the past two years.

**Why work with Mindshare Media?**

- Demonstrated Project Success
- Dependable Expertise
- Steadfast Professionalism
- Broad Technological Expertise
- Strategic Partnerships

## Mindshare Media, Inc.

### COMPANY

Mindshare Media, Inc. is a full service professional web design and marketing firm. We are adept with leading-edge internet technologies and practices including JavaScript (AJAX), object-oriented ActionScript 2.0 & 3.0, Flex 2.0, CSS, PHP, MySQL, XML and XHTML.

Mindshare Media, Inc. is a privately held New Mexico corporation owned and operated by Damian Taggart, one of two Certified Flash Developers in the state of New Mexico. Mindshare Media was formed in 2006 when Damian Taggart closed his former business Multimedia Engineering.

Mindshare Media's value is demonstrated through our ability to attentively listen to and comprehend the needs of our customers and translate those requirements into a solution that both accommodates available budgets and meets operational needs.

### SERVICES

We offer an extensive range of internet and new media services including web design, online marketing, e-commerce solutions, internet application development, interactive CD-ROM and DVD production. Mindshare Media welcomes projects of any scale.

**Consulting**

Mindshare Media offers consulting services on internet strategy, marketing and project management. Through extensive experience with web technologies and a broad network of internet and design professionals, we're happy to assist you and your business with the complex task of sorting out and leveraging web-enabled business processes.

**Interactive Design & Web Application Development**

Mindshare Media provides interactive web application development, including streaming video and synchronized multimedia presentations, as well as standards-compliant website design.

**Training Services**

Mindshare Media provides onsite technology training for content management, web solutions, and general computer literacy.
